

SECURE & CONVENIENT

LOCK WITH ONE TAP

Kapture Smart Lock keeps you and your loved ones safe, using the latest technology to make it quick and easy to secure your home

DESIGNED WITH PURPOSE

What **Kapture** Can Do For You

Smartphone Access

Lock and unlock your door with the simple-to-use Kapture Home app

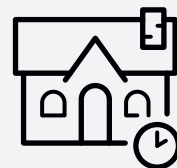

Family & Friends

Share individual access, set access hours, or grant single-use codes

Lock History

Keep track of who and when someone accesses your lock

Short-Term Rentals

Assign unique access codes that expire at the end of a guest's stay

Keypad Access

Set unique codes for family members and guests.

Physical Key Access

Use a key anytime with the hidden keyhole. Receive alerts for key access and lock tampering.

Automatic Locking

Locks when idle. Never worry again about forgetting to lock your door.

Easy Installation

Replace your old deadbolt with just a screwdriver. —no other tools or drilling needed.

Lock-Out Security

Disable the keypad for a set time after consecutive failed entry attempts with just one setting.

Encrypted Technology

High-grade Bluetooth 5.0 guards against hacks with AES & TLS encryption.

STAY CONNECTED

KAPTURE WI-FI LINK

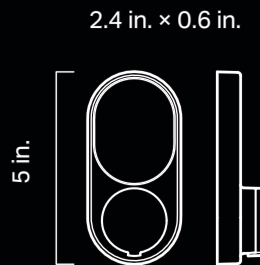

Add Kapture Wi-Fi Link to access your lock anytime, anywhere with the Kapture Home app. Get live alerts whenever Kapture is unlocked or the keyhole cover is opened. Lock or unlock your door, adjust settings, and grant access remotely. Connects to Alexa or Google Assistant for at-home voice command.
